Beloved Palestine

I have decided to publish some names and photos of the Israeli military personnel who participated in the so-called "Operation Cast Lead", the offensive launched by the Israeli Occupation Forces (IOF) on the Gaza Strip between 27 December and 18 January 2009. The names of these criminals called my attention since the first day of their criminal attack against the Palestinian civilians in Gaza. I consider each person who took part in this IOF and each one whose name appears in this report as a war criminal who should be requested by an international court of justice, just like all other war criminals who were persecuted before...

My decision is a challenge to the State of Israel, to the Israeli attorney general Mazuz and the military headquarters, who forbade the media from publishing the names of the Israeli officers who lead "Operation Cast Lead" in Gaza, murdering 1310, and wounding over 5600, over 90% of these casualties being civilians, destroying public and the private property in many parts of towns and cities, and completely razing several areas completely to the ground.

The Israeli Attorney General Menachem Mazuz is conniving with others the war crimes committed in Gaza. These others are Ehud Barak, Ehud Olmert and his cabinet of criminals, and the military counterpart, Brigadier General Avihai Mandelblit. Chief of Staff Gabi Ashkenazi is equally involved in the war crimes in Gaza. The Attorney General of Israel asked his military counterpart to open a quick investigation among the military as an "alternative" measure to hinder potentially "hundreds" of international lawsuits against Israeli officials alleging war crimes against the Gaza population during the operation has been widely anticipated. There is growing concern in the offices of the Israeli justice and war ministries because they expect a massive wave of lawsuits for human rights violations against Israeli officers and politicians.

The criminal intentions of Menechem Mazuz, namely helping to cover up war crimes of the State of Israel by giving an advice to the military, and by opening a "formal and internal investigations" is a clear fraud planned by the Israeli ministry of justice. Such a behavior is not that of a state, it is the behavior of a criminal organization trying to escape their well deserved punishment.

The military censor of Israel is preventing the media from identifying officers who participated in the Gaza Strip IOF, and divulging information about them which could be used in legal proceedings against them in courts of justice abroad. There is great concern at the defense and the justice ministries that Israeli officers will be singled out in a massive wave of suits for human rights violations.

In recent days the censor has forbidden publishing the full names and photographs of officers from the level of battalion commander down. It is assumed that the identity of brigade commanders has already been made known. The censor also forbids any reports tying a particular officer of battlefield command rank (lieutenant to lieutenant colonel) to destruction inflicted in a particular area.

The Israeli war criminal number one, Ehud Barak, stated that the State of Israel bears the responsibility for sending IOF troops on missions in Gaza, as well as for defending civilians, and as such it is obligated to grant its full support to these officers and soldiers who participated in the IOF in Gaza. Barak said that no harm should come to officers and soldiers as a result of their involvement in the operation.

The war criminal Barak ordered the IOF to set up a team of intelligence and legal experts to collect evidence related to operations in Gaza that could be used to defend military commanders against future lawsuits abroad.

Here are Some Names of the Israeli War Criminals who Operated in Gaza

Brig Gen Jonathan Locker, head of Israeli air forces which operated in Gaza.

Colonel Yigal Slovik, commander of 401st Armored Corps Brigade convoy, entered Gaza in a Merkava tank from Netzarim and he did not stop until it reached the coast. He murdered the Palestinian civilians who raised the white flags, and he destroyed many houses over the head of the people. The brigade units also conducted numerous raids targeting public infrastructure.

Sho'alay Marom, Brigadier (res.) Col. Moshe Orr, razed to the ground hundreds of houses in Rafah, and in Jabalia.

Lt. Col. Yoav Mordechai, he served as a commander of the criminal Golani infantry brigade's 13th Battalion in Gaza and in the "second Lebanon war". In one well-known incident, about more 150 Palestinian civilians were gathered by the IOF in a house, and then the house was bombed and shelled. Lt. Col. from the Chief of Staff down to the Division Commander.

Col. Pnina Sharvit-Baruch, head of the International Law Department, Military Advocate General's Office, Israel criminal "Defence" Forces. Sharvit-Baruch legitimized the war crimes operation "Cast Lead" in Gaza. She justified the killing of Palestinian civilians including hundreds of children.

Under Sharvit-Baruch's command, IDF legal experts legitimized strikes and the collective murders in Gaza, she said to the IDF war criminals during the operation "Cast Lead" in Gaza go-ahead. Sharvit-Baruch and her division believed that the killing of Palestinian civilians in a house whose residents the IDF has warned might be considered legally justified, although the IDF does not actually target civilians in this way. According to a senior official in the international law division, "Our goal is not to tie down the army, but to give it the tools to win in a way that is legal."

Col. Pnina Sharvit-Baruch, reviewed the international law pertaining to urban warfare. She argued several times, that from a strictly legal point of view Israel was entitled to use artillery against targets in Palestinian urban areas. "If they are launching rockets against us from built-up areas, or building bombs in the basements of apartment buildings, we are within our rights to shell these areas in response," said Sharvit during a Conference on Urban Warfare in the Territories.

Lieutenant-General Gabi Ashkenazi, IOF Chief of Staff, whose father was a holocaust survivor from Bulgaria and whose mother was born in Syria. This moral degenerate is the engineer of this new holocaust in Gaza. He committed war crimes in south of Lebanon. Three of his soldiers were captured by the Hizbullah resistance after they illegally crossed into Lebanon as a provocation ordered by him.

Chief Army Rabbi, Colonel Avichai Ronsky, "Chief Army Rabbi", Colonel Avichai Ronsky, founder and head of Yeshiva in the illegal Itamar in the north of West Bank, a former deputy Tank Commander. He is the author of works on religion and the military. He studied with the hate preaching Col. Rabbi Yisrael Weiss.

In 2007, he opened a new course trains Yeshiva graduates for the army whoserved in combat units to be battalion rabbis in reserves. The first course, which was considered a "pilot" took place at Army Training Base 1, lasted for six weeks and had 109 soldier graduates.

Colonel Avichai Ronsky declared that his job is to reinforce the "fighting spirit" of the soldiers. He is a man of the extreme right terrorists, not far from the spirit of the late Rabbi Meir Kahane, whose party was outlawed in Israel for its fascist ideology. Under the auspices of the army rabbinate, religious-fascist brochures of the ultra-right "rabbis" were distributed to the soldiers.

Major-General Yoav Galant, southern command chief. He was the chief commander in charge of "Operation Cast Lead". He personally participated in the massacre against civilians in Gaza.

Major General Amos Yadlin, Military Intelligence chief, participated in "Operation Cast Lead" in Gaza.

War Criminals Preparation Team

Yuval Diskin, Shin Bet security service chief, the organizer of the war in Gaza. Due to his personal recommendation, the IAF bombed the hospitals and the medical centers of Gaza.

Ehud Olmert, the corrupt Israeli Prime Minister legitimized the War in Gaza together with his cabinet.

Ehud Barak, Israeli War Minister, planned "Operation Cast Lead" in Gaza in order to improve his chances during the next elections.

Tzipi Livni, Foreign Minister of Israel, who leads the Israeli propaganda to legitimize the massacre and destruction in Gaza, planned and coordinated "Operation Cast Lead" in Gaza in order to improve her chances during the next elections

The names of many other war criminals from the infantry, tanks, combat engineers, artillery, and intelligence who participated in the war crimes in Gaza are still unknown. They should not feel safe either. War crimes, crimes against humanity and genocide are proscribed and prosecuted in all countries of the world in one way or other, and there exists no statute of limitations for such crimes. The "protection" offered by Mazuz and his cronies is weak, first of all because the fact that such "protection" is offered is an implicit admission of guilt, and because national and international statutes specifically address the issue of sham "proceedings which are instituted to protect the guilty", and because since the Nuremberg proceedings against the German army, following orders is no excuse and does not absolve of culpability. We and others will continue doing whatever is possible to find out the names of as many of the criminals who participated in Gaza as possible, and any information which will put them behind bars.

More names of Israeli war criminals

Here is a list which includes some names of IDF war criminals who were injured

during the ethnic cleansing "Operation Cast Lead" in Gaza. Karov is the son of Chaya and Karnei, colonist Rabbi Ze'ev Karov, a Yeshiva terrorists school in Kedumim near Nablus. He is also the brother-in-law of the war Brig.-Gen. Yoav Mordechai, who replaced the commander of the Golani's Battalion 13 after the latter was wounded in the January 5 friendly-fire incident in which three soldiers died.
